PEACE PROSPECTS BRIGHTER.

Washington, July 16.—The Navy Department was informed this afternoon by cablegram from Commander Mulligan of the arrival of his ship, the Marblehead, at La Libertad, from Panama, which port he left last Friday night. Before sailing Commander Mulligan was instructed by the Navy Department to report to the American Minister, Mr. Combs, at La Libertad, which is the port near San Salvador, the capital of Salvador.

In the absence of Mr. Combs, who is detained at Champerico awaiting next Friday's steamer, Mr. Brown, the American secretary and charge in Salvador, will communicate with Commander Mulligan, and that officer will place his ship at the disposal of the American legation, so that Mr. Brown will be in a position to carry out the instructions which were cabled him to-day from Washington to proffer the services of the State to the Salvadoran Government.

Commissioner Bingham and Mr. Dunn based their visits purely on social grounds. They are both old-time friends of the President.

Fighting At Four Points.

San Salvador, July 16.—Guatemala is fighting Salvador and Honduras at four points of Guatemalan and Honduran territory. Both sides fight bravely, with uncertain results.

Arrangement of Details.

Acting Secretary of State Ade has not attempted at this great distance from the scene of trouble to arrange all the details of the meeting of the Peace Commissioners, but will leave that task to the American legations. It is stated that neither Minister Merry nor Messrs. Combs and Brown will act in the capacity of a peace commissioner to either country; they are charged simply as good friends to both parties to endeavor to bring the hostile nations into friendly relations without further loss of blood. To that end, they will interest themselves in the selection of Peace Commissioners by the governments to which they are respectively credited, and will probably conduct these commissioners to the Marblehead and go with them beyond the three-mile limit to sea, and if called upon will advise them in a friendly way. This is not the first time the deck of a United States man-of-war has been the scene of a peace conference; the Marietta was thus employed six or eight years ago in bringing about peace between Costa Rica and Salvador, the Philadelphia played a similar part at Panama during a revolution there about ten years ago, and more recently the Hargis-Callahan will be in a position to carry out the instructions which were cabled him to-day from Washington to proffer the services of the State to the Salvadoran Government.

Mr. Hogg minimized the importance of the criminal indictment against Marcus, as a sufficient motive as adroitly as Mr. Jouett had emphasized it. He declared that no witness had appeared against the defendants except convicts, self-confessed criminals, or unreliable witnesses whose testimony has been impeached. He took up the court's instructions, and paragraph by paragraph, argued that no jury could find the defendants guilty. He dwelt at great length on the instruction, "every fact necessary to establish such conspiracy to the exclusion of a reasonable doubt, must be proved."

"There is nothing Hargis or Callahan will take on the Salvadorean commissioners at La Libertad, and then proceed to the nearest Guatemalan port, San Jose, where the agents of that government will board the ship, which will then go to sea beyond the three-mile limit until the conferences are over."

Peace Prospects Brighter.

The important developments of the day, aside from the offer of the Marblehead, was an assurance to the State Department from President Cabrera that Guatemala would refrain from further hostilities if Salvador would undertake to do the same, which news was promptly communicated to Minister Merry, at San Salvador, in order that he might transmit a proposal to the Government at that place.

Another point developed was that Salvador and Honduras had entered into an alliance, the nature of which is not certainly known, but it is believed by the officials here that the purpose is to agree upon terms of peace that shall be proposed by this two countries to Guatemala. This news came to the State Department from Charge Brown, at Guatemala City. Still another telegram, this one from Minister Merry, informed the State Department that the Government of Honduras insisted upon being considered along with Salvador in the peace negotiations with Guatemala.

The new underground electric railway mail service was put into actual operation in Chicago yesterday for the first time.

Judge W. S. Pryor will announce today whether he will be a candidate for the Democratic nomination for Governor.

The condition of William Burke, of Henderson, Ky., who was hurt in the automobile accident early Sunday morning, is extremely serious. The doctors say he may die. His brother, James Burke, who was badly bruised at the same time, will recover.

THE CLOUDS ARE CLEARING.

those lofty principles embodied in the movement of Jefferson, the great founder of our party and constituting our party creed from that time to the present. A better platform could not be devised, the cornerstone of which is equal and exact justice to all men and the blessings of government secured to all, leaving no man injured in another, leaving them otherwise free to regulate their own pursuits and not taking from one what another has earned. Such was the party of Jefferson; such the party of Jackson, and such is it today. It goes with age, but as vigorous as when the sun rose in old Virginia and still is spreading.

This working party of the people is rich in having as fearless, faithful and courageous advocates the Bryanites, or the Jenkinsites, or the Republicans of Nebraska, but of the United States at large, whom prophecy has named our next President.

Appalled At Corruption.

The world stands appalled at the startling disclosures of the corruption exposed by the investigation of insurance companies whose offices, not of the two largest cities, but in every town and hamlet, have been used in the protection of widows and orphans, contributed to the National Republican campaign, and the results of which were for which they were to receive governmental favor and protection and such legislation as would give the same to the rights of the citizens of these United States. When confronted with their turpitude, they not only denied it, but began to attempt to justify it on the ground of expediency. Our moral sense have been shocked by other similar instances.

To carry out its purposes the Republican party has compromised with crime, and forgotten the sacred trust that was given to it to do for the safety and welfare of the government for the benefit of all the people. It has delegated its governmental power to the corrupt, and has combined with them in consideration of these corrupt contributions made to promote its success. With the Democratic party there is a combination with certain of its policies are grounded on higher, loftier and nobler principles. Even the Republicans of Washington, who have come a disciple of Democratic policies that in 1859 and 1860 were denounced, that the rights of the people of the State, the rights of life, liberty, property and the pursuit of happiness.

On High Plane.

It is my purpose to conduct this campaign upon a high plane and with a dignity commensurate with the honor, the nobility and purity of the cause and promotion of Democratic success. With the exception of 1896, when the party was disrupted and torn asunder by reason of the Tammanyite influence, the party has been materially increased during my tenure of office, and this has been accomplished without any opposition from the party which I aspire, my attitude will continue the same, and as far as lies in my power, the rights of government and the Commonwealth are impartially enforced, without fear or favor, so that the prime object of government, that is, the securing of the rights of the people of the State, the rights of life, liberty, property and the pursuit of happiness.

Written No "Cheap John."

I admit it to be possible that the board could have hired a cheap architect and that a capital building could have been erected at a much lower cost than the one selected.

In this act, and in all other respects, I have done my best to serve the public interest, and to the best of my ability, to have the work done in the most satisfactory manner possible.

My opponent, Mr. Hays, in his opening speech at New Castle, drew a general indictment against the present Administration, which in excess of irony he terms a machine. There are only two ways to combat a machine, and that is to limit the use of the machine, and to indicate the character of campaign that would likely result in the accumulation of power that would be utilized by the Republicans in 1897.

In this act, and in all other respects, I have done my best to serve the public interest, and to the best of my ability, to have the work done in the most satisfactory manner possible.

It is a contest for supremacy within the State, and the Democratic candidate, Kentucky has always cast her electoral votes for the Democratic candidate. In 1860, when Bryanites, who were candidates before the people, they were elected by a narrow majority, and in 1864, when the Democratic party had been given any chance at all, they were supported by a majority of the State, and in 1868, when the Republicans had exonerated from corruption, and the same competition known to American politics, Kentucky has always cast her electoral votes for the Democratic candidate.

In 1876, when Bryanites, who were candidates before the people, they were elected by a narrow majority, and in 1880, when the Democratic party had been given any chance at all, they were supported by a majority of the State, and in 1884, when the Republicans had exonerated from corruption, and the same competition known to American politics, Kentucky has always cast her electoral votes for the Democratic candidate.

Now, when the Bryanites, who were candidates before the people, they were elected by a narrow majority, and in 1892, when the Democratic party had been given any chance at all, they were supported by a majority of the State, and in 1896, when the Republicans had exonerated from corruption, and the same competition known to American politics, Kentucky has always cast her electoral votes for the Democratic candidate.

And why has Kentucky remained thus loyal? Why when all the doubtful States turned the other way, did she remain steadfast and unmovable? Because she has been taught the noble teachings and her faith in the present State administration. This administration is by far a handsome majority and entrusted by the people of the State affairs of the State, has given to Kentucky an honest, faithful and economical government. She has given to the children of Kentucky, whose beneficent work is received by a State ticket for nearly a quarter of a century.

Again, in 1892, a presidential year, Kentucky was considered a safe bet for a Republican candidate, and every State, save one, was considered a safe bet for the Democratic candidate.

In 1896, when Bryanites, who were candidates before the people, they were elected by a narrow majority, and in 1892, when the Democratic party had been given any chance at all, they were supported by a majority of the State, and in 1896, when the Republicans had exonerated from corruption, and the same competition known to American politics, Kentucky has always cast her electoral votes for the Democratic candidate for President by a narrow majority.

Why Kentucky Is Loyal.

And why has Kentucky remained thus loyal? Why when all the doubtful States turned the other way, did she remain steadfast and unmovable? Because she has been taught the noble teachings and her faith in the present State administration. This administration is by far a handsome majority and entrusted by the people of the State affairs of the State, has given to Kentucky an honest, faithful and economical government. She has given to the children of Kentucky, whose beneficent work is received by a State ticket for nearly a quarter of a century.

Shot For Hays.

Gen. Hays, equally with other officials constituting the present State administration, Kentucky had a bonded debt of \$1,000,000 hanging over her and a tax rate of 2 per cent. Since then the bonded debt has been wiped out, six million dollars, an appropriation of \$50,000 has been made to the State, \$100,000 a year is being paid to the Children's Hospital, whose beneficent work is received by a State ticket for nearly a quarter of a century.

Public Printing.

A Capitol that will cost \$125,000 is now under construction and will be completed before the expiration of the present session of the present State administration. In architecture, a splendid and mechanical design will be in evidence, the growth and development of our proud Commonwealth. We will see the roll of the sun rise in its rising after wave roll by, sweeping in its rays the clouds of ignorance from the face of the earth, with the building of the building stand as a monument to the progress of the Commonwealth.

This will all be done without incurring the present rate of taxation, and when the building is completed the tax rate may be reduced. As a member of the administration, I am proud of its record, and the progress that has been manifested, and the power that I have. I am proud of the contract that has been proposed in it, and that the work of the building of our mountains and hills have become a reality.

These criticisms are mainly directed to the several heads of "public printing," "architectural fees," "increase of tax and expenditures." With your indulgence I will briefly note these criticisms, and the course which he has seen proper to speak of them.

Under the law of the State, public printing is let to the lowest bidder in four classes, and the contracts are as to which class that character of work is assigned. It was fully discussed before the Hon. C. F. Pratt, the then Auditor of Kentucky, then and always regarded as a conscientious and able lawyer, and the commissioners have decided that the work so classified was paid for under contract at the contract prices, no more.

This whole question was considered by an investigating committee, appointed by

the Legislature to inquire into the public printing of the State, and will be completed before the expiration of the present session of the present State administration. FOR SAFEKEEPING

Sylvester Baskett Taken To
Henderson.

ON ORDER OF JUDGE DAIVES
COUNTY.

GERMAN WANTED JAILER TO
HANG THE NEGRO.

"KILLED PEOPLE IN FUTURE."

Owensboro, Ky., July 16.—[Special.]—On account of the failure of the mob to storm the Daviess county jail at 2 o'clock this morning for the purpose of lynching Sylvester Baskett, the negro charged with shooting and killing a patrolman, it was believed that another effort will be made to break the jail open. Judge Calhoun, who refused to give up the keys to the jail this morning, applied to the County Judge for protection.

Judge Owen decided that it would be best to send the negro to Henderson for safekeeping. He was taken there to-night in the custody of Sheriff Hart and Deputy Jailer Lyons.

White Jailer Calhoun was trying to persuade the mob to disperse this morning, a brawny German said: "Youst take him and hang him. He has already killed people in the future, and he will do it again."

Funeral of Mrs. Hill.

Covington, Ky., July 16.—[Special.]—Simplicity marked the funeral services to-day for Mrs. Cora Lindsey Hill, wife of the Rev. Felix R. Hill, Jr., pastor of the Scott-street Methodist church, South. The service was conducted by the Rev. E. M. Messick of the fourth year's class of the seminary, dedicated at the marriage of Mr. and Mrs. Hill. Assisting him were the Rev. Felix R. Hill, Sr., of Nashville, father of the bereaved husband; the Rev. J. C. Jackson of Lexington, and the Rev. W. O. Sadler.

Edward Hill, of Louisville, brother of the Rev. Hill, Jr., attended the funeral. Mrs. Hill died following an operation for appendicitis.

Applicants For Postmastership.

Barbourville, Ky., July 16.—[Special.]—There are eight applicants for the Barbourville post-office, and much speculation is being indulged in concerning the probable success of each candidate. The appointment is six months overdue, the term of Judge McDonald having expired last February. He is an applicant for reappointment. Other applicants are John M. Tyler, J. W. Hemphill, Fred Bretz, B. C. Lewis, J. F. Catron, T. W. Wyatt and Elijah Miller. One applicant has suggested a poll of votes in the city, the one getting the most votes to have a clear field. The plan has not met with much success.

Congressional Candidates Busy.

Barbourville, Ky., July 16.—[Special.]—The campaign is well under way in the Republican nomination race, and new candidates for the Republican nomination are canvassing the lower end of the district this week. DEMOCRATS WILL
CONTROL CONGRESS

STATEMENT OF CHARLES S.
HERNLEY, OF INDIANA.

REPUBLICANS GUNNING FOR CON-
GRESSMAN WATSON.

OBJECT TO BOSS RULE.

Indianapolis, Ind., July 16.—[Special.]—Charles S. Hernley, of New Castle, former Chairman of the Republican State Committee, announced here to-day that he intends to vote against Representative James E. Watson this year, and that he will do all he can to retire the Sixth District Congressman to the quietude of private life.

"They are singing the same song all over the country," he said. "One man who is a good judge of the political drift told me that 800 Republicans will vote to retire Watson. A great many of them do not know the name of the Democratic candidate, and they will support him, not because of any pre-decision for a Democrat, but because he is the man who is running against Watson. Jim Watson is the man they are gunning for."

Why are they after Watson? Mr. Hernley was asked.

"Well," said the ex-chairman, "there are several reasons, and one of the first and foremost is that they are tired, mighty tired of boss rule. While Watson has been cracked up as a big man, they believe that the world would be won in the same old gait if he should happen to be defeated. The truth is, the Sixth District Republicans are bosed to a degree that is absolutely deplorable in a free Republic, and many of them feel that the time has come to strike off their shackles."

"If this tariff revision wave continues the Democrats will stand a show of carrying the House of Representatives this year, will they not?" Mr. Hernley was asked.

"They will carry the House without the aid of the tariff issue," was his reply.

"Everybody," said he, "is for tariff revision, except the protected interests and a few politicians. Representative Watson wanted to make a stand-pat speech in Congress, but he knew that he did not dare to do so. The speech which Charlie Landis made, sounding the stand-pat slogan will cost him thousands of votes."

ALFRED BEIT DEAD.

LONDON.

Recently Donated \$500,000 For a

Other Institutions.

London, July 16.—Alfred Beit, the well-known South African financier, died to-day. He had been in bad health for some time.

Mr. Beit was born in 1853 at Hamburg. He was a life-Governor of the Deutsche Consolidated mines, a partner in the firm of Werner, Beit & Co., and a director of the Rand mines, Rhodesia, railway, Bechuanaland railway trust, Consolidated Company, Buttinton Mine, and British Chartered South African Company. He was reported to have been implicated in the Jameson raid. Later a suit was brought against Mr. Beit on the ground of complicity in the raid, and his prosecution was demanded by Dr. Leyd, the representative of the Transvaal in Europe, and 1886 his resignation from the Board of Directors of the British Chartered South African Company was accepted.

When Cecil Rhodes died in 1902, it was found that Mr. Beit was appointed one of his executors and Mr. Beit thereupon returned to the Board of Directors of the British Chartered South African Company. Early in 1903 Mr. Beit suffered an apoplectic stroke, while at Johannesburg, and it appears that he never fully regained his health. Since that time he has been a recluse at the Galt House, and the last report on him in his work is his studio, and much of the work of developing plates and making pictures will be done there.

These who will have charge of the exhibit of pictures are H. E. Wallace, F. W. Shook and Al Pier. Pictures will be shown in the exhibition hall at the Galt House, and several hundred have already been hung. A number of pictures on display here will be sent to Niagara Falls, where the National Convention of Photographers will be held, beginning August 7.

George H. Hester Now Applicant For Republican Nomination For Congress.

James W. Dunbar, who was an applicant several weeks ago, has withdrawn from the race for the Republican nomination for Congress in the New Albany district formally withdrawn from the race yesterday. Mr. Dunbar had been superintending the United Gas and Electric Company and had turned his nomination to take effect July 1. He has remained with the company and will remain with the company. This has prompted him to retire from the race for the nomination.

George H. Hester, of New Albany, announced himself yesterday as a candidate for the Republican nomination for Congress, subject to the decision of the supreme district committee, the date for holding the election not yet been announced. Mr. Hester is a son of the Rev. W. M. C. Hester, a pioneer Methodist minister. He is graduated from the New Albany High School and attended, while graduated from the law department of the University of Michigan at Ann Arbor. He has been practicing law in New Albany for the last fourteen years and served two years in the Attorney General's office as City Attorney. As the Democratic nominee for Congress is expected to carry the district by a majority of from 4,000 to 5,000, there is little hope of a Republican nomination is an empty honor.

Lexington May Have a Fair After All

MEETING OF CITIZENS CALLED TO DISCUSS THE MATTER.

REORGANIZATION OF BANKS BEING MADE.

SUIT TO BREAK A WILL.

LEXINGTON, Ky., July 16.—In the course of its campaign to secure the State Fair, Lexington worked itself up to such a pitch on the subject of a show of that kind that it still has the Fair "bee in its bonnet." Having lost the big State institutions to Louisville, an effort is now being made by a number of members of the Chamber of Commerce to form an organization for holding a local, or, as they call it, a "Bluegrass" Fair this fall. The following proclamation, authorized by President John Skahn and Secretary John G. Cramer of the Chamber of Commerce, was published in a Lexington afternoon paper to-day:

Citizens of Lexington and the Bluegrass—The Chamber of Commerce of the city of Lexington desires the leaders to announce a call of all citizens of Lexington or other Bluegrass counties who are interested in the proposition of a Bluegrass Fair in Lexington in the coming autumn to meet them in the conference room afternoons at 3 p.m. at 23rd o'clock, for the purpose of discussing the advisability of organizing a Fair Association. It is the desire of the leaders to ascertain at once the attitude of the people toward the project and if that attitude is favorable, a call will be made in the name of a personal invitation, and means that every man in the Bluegrass who is interested or desires to become interested in the proposition to attend.

Reorganization of Banks.

The reorganization of the First National Bank, brought about by the recent purchase of a controlling interest in the bank's stock by a syndicate of local capitalists, was begun this morning. Winston, who has been a director of the bank for thirteen years, remained as director, and John Gandy, Jr., president of the Lexington Brewing Company, was elected in his place. The following of the old directors also resigned: John M. Greenway, John Gandy, Jr., son and H. M. Williamson. In place of these, I. N. Combs, of the Combs Lumber Company; George R. Hunt, attorney-at-law, of the firm of Hunt & Hunt; F. A. Bullock, County Judge of Fayette county, and DeShay Breckinridge.

Suit to Break Will.

Mr. Howe is a resident of St. Louis. The case was referred to the common law docket for trial at some future time. As Judge Pryor was one of the witnesses to the will he announced that he would be unable to sit in the case. The section of a presiding Judge was passed for the present.

GREAT MEETING

TO BE HELD BY BAPTISTS AT OWENSBORO.

Extensive Plans For Gathering Under Auspices of the B. Y. P. U.

The largest assembly of Baptists ever convened in the State will be held the first four days in August at Owensboro. According to the latest statistics there are 25,000 white missionary Baptists in Kentucky. It is expected that every section of the State will be represented in the coming encampment, and with the large Baptist constituency in and around Owensboro there will be from 6,000 to 10,000 persons in attendance daily.

This is not to be a deliberative meeting, and the General Association of Kentucky, but it will be educational and inspirational. All the work of the denomination will have special attention, including evangelism in the States, the navy and the world, the world's education, young people's people's work as fostered by the Baptist Young People's Union and Sunday-school extension. The denominational leaders, representing all of these departments, will be in attendance, and will make addresses of the most vital import, while opportunity will be afforded for open discussion on the part of Baptist preachers and laymen from the State at large.

In addition to the programme of addresses, such men as Russell H. Conwell, of Philadelphia; A. C. Dixon, of Boston, and others, will be here as a considerable expense for special lectures each afternoon of the encampment, while the evening hours will be filled with high-class entertainments, such as are suitable for a Christian assembly.

Louisville will be well represented. All of the Baptist churches are arranging for full delegations, and in addition to the regular delegations to the encampment, a special train will run Friday, August 3, leaving the Tenth-street station 7:05 a. m., over the Henderson route, which from 300 to 400 young men are expected to go to Owensboro to attend the special lectures referring to distinctly H. Y. P. U. work. On that day the annual election will take place, in addition to the carrying out of an attractive programme.

This encampment will be under the auspices of the Baptist Young People's Union of Kentucky, of which the Rev. R. L. Brown, pastor of the High Street Baptist church is president, and the Rev. Joseph T. Watts is corresponding secretary.

ELECTED CASHIER.

H. H. HOLEMAN TO BE WITH BANK OF COMMERCE.

Has Been Banker and Prominent In Business Circles In Madisonville For Years.

H. H. Holeman, of Madisonville, has been elected cashier of the Bank of Commerce of Louisville and will assume the duties of the position September 1. He was born in 1861, succeeded Samuel Casseday, who was elected president of the institution some time ago. Since Mr. Casseday has been performing the duties of president of the bank, Joseph Morris has been acting as cashier. Mr. Hayes has been with the bank for the past five years and is a good assistant cashier.

The acceptance of the position of cashier by H. H. Holeman according to the board of directors, who had been thinking of selecting him for some time, Mr. Holeman is a leading business man of Madisonville and as vice president of the active board of Morton's Bank in that city for several years. It was through business transactions that the managers of the Bank of Commerce learned of Holeman's ability as a banker. Mr. Holeman also is connected with various industries in Madisonville and western Kentucky.

We think we have made a good choice in the selection of Mr. Holeman as cashier of the Bank of Commerce," said Mr. Casseday. "He is a man of exceptional financial ability, and at the same time is popular personally with the people. He is an acceptable addition to the business circles of Louisville."
